

BIMIX

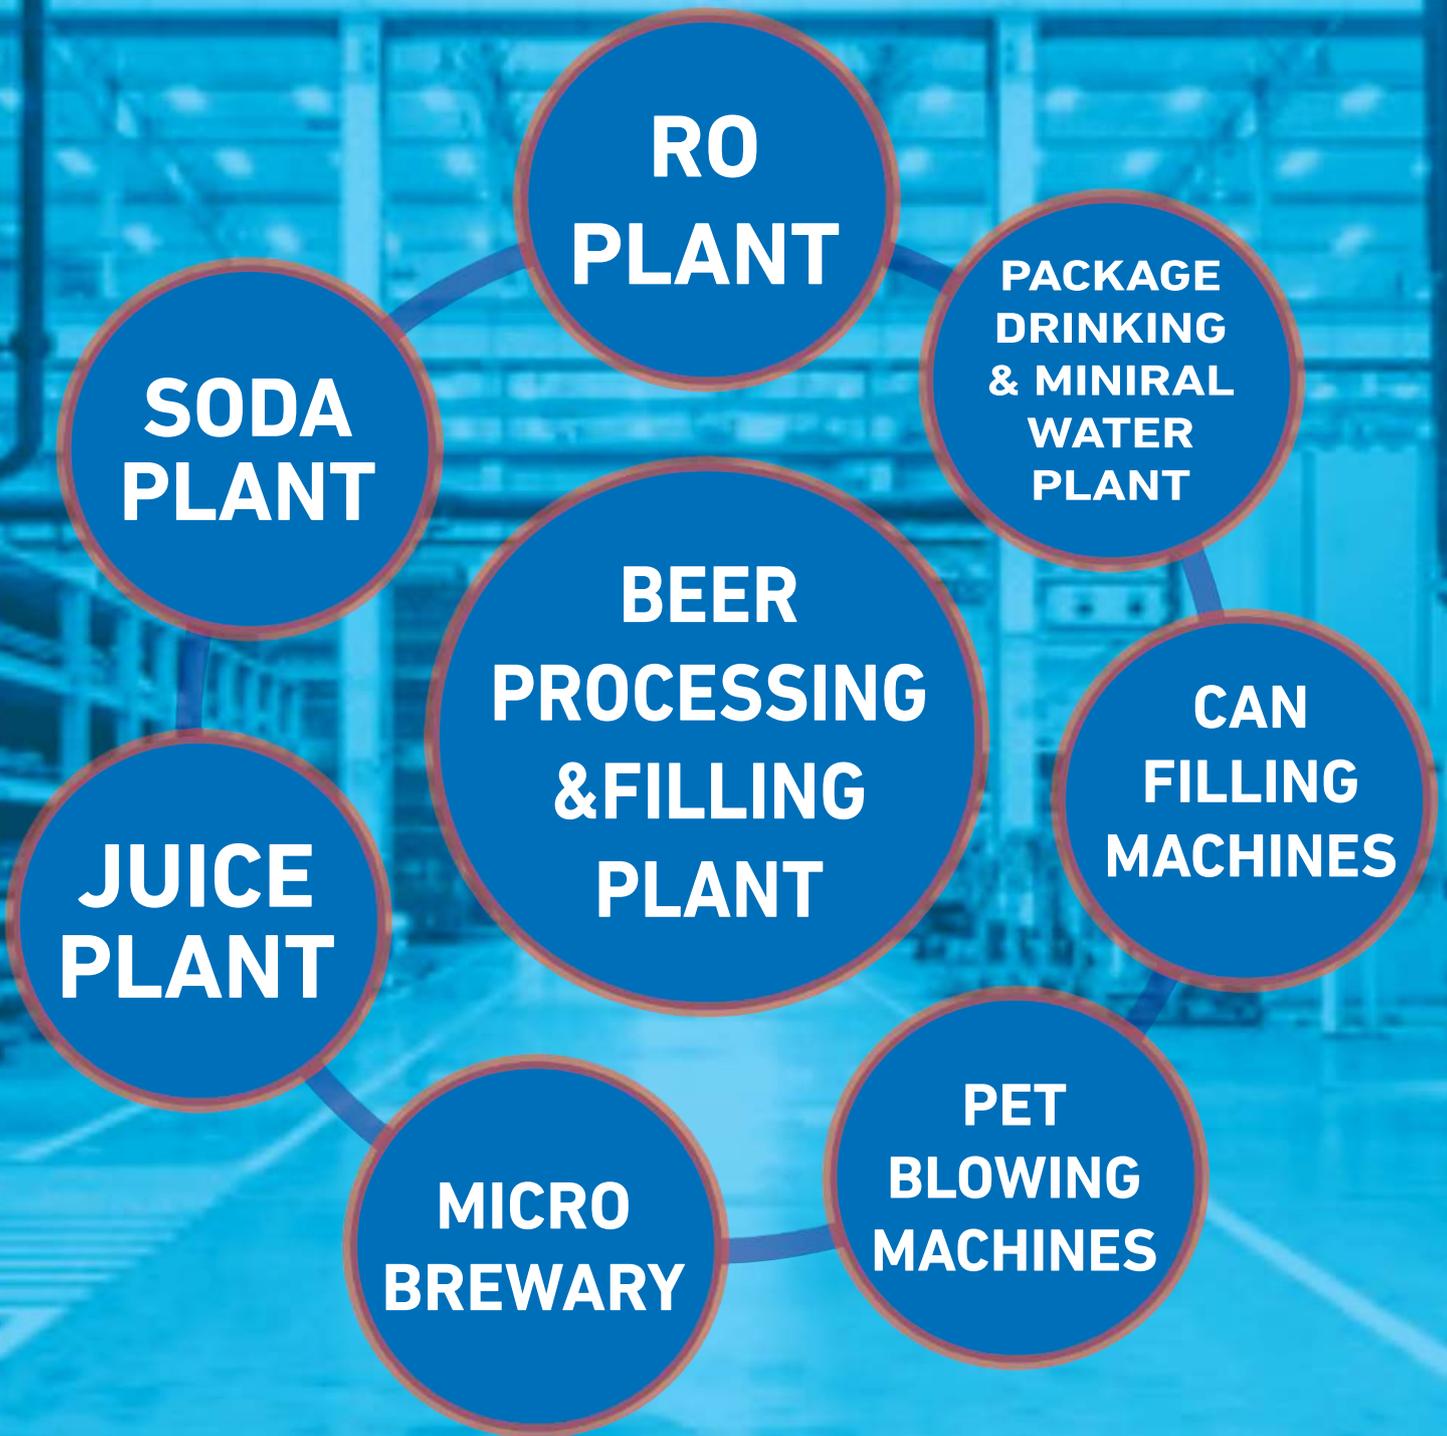

MACHINES PVT. LTD.

LEADER OF BEVERAGE INDUSTRIES

PRODUCT RANGE

ABOUT US

We, Bimix Machines Pvt. Ltd. AN ISO 9000:2015 certified company began our journey in 2016. We provide complete RO Plant for Automatic bottling solutions industry manufacturer, supplier and exporter of RO packaged Water Treatment Plant, bottle filling machine, jar washing filling machine and many more. We take end-to-end responsibility planning, integrating and managing, quality, discharge and environmental fronts. By creating* quantifiable benefits for our customers. We are counted amongst the Renowned manufacturers and suppliers of a wide range of water purifiers and all kinds of water treatment plants bottling machines. These are requirement, commercial, industrial as well complete water processing plant with residential areas.

PRODUCT & SERVICES

Manufactures and exporters suppliers of Ro plant, Package Drinking and Mineral Water Plant, Soda Plant, Juice Plant, Beer Processing & Filling Plant, Micro Brewery Plant, Pet Blowing Machines, Can Filling Machine. Our range 30 bpm to 100 bpm, same automatic Bottle Filling Machine range 20 bpm automatic bubble top Washing and filling Machine range 200 bph to 500 bph manual bubble top Washing machine complete water processing plant with pre filtration RO plants, post filtration ss and, carbon fillers, UV System, SS storage tank and Ozonator conveyors and Roller Convey, our company undertakes turnkey projects from concepts to commissioning all kind of water processing machines sales and service.

PRODUCT RANGE

Automatic bottling plants. Jar automatic washing and Filling machine RO Plant, Soda Plant & Juice Plant, Energy drinking plant, complete machineries for all All types of Bottling Plant water plant Started of BIS with the purpose of offering complete water bottling line water bottling Plants all types and turnkey project.

Reverse osmosis is a latest technology to remove all excess total dissolved solids chemicals from water up to 95% it removes bacteria and viruses to a level of 9% it restores the original taste and quality of water other purification methods have no effect of TDS level of WATER. This is high quality compact RO System using all materials 304g, 316L

RO PLANT

Reverse Osmosis (RO) plants use a range of equipment to purify water by removing dissolved salts, impurities, and contaminants. Here's an overview of the key components typically found in an RO plant:

FEED WATER SUPPLY SYSTEM

PRE-TREATMENT SYSTEM

REVERSE OSMOSIS SYSTEM

POST-TREATMENT SYSTEM (OPTIONAL)

STORAGE AND DISTRIBUTION

CONTROL SYSTEMS

Available in 1000 LPH TO 100000LPH

PACKAGE DRINKING & MINIRAL WATER PLANT

Automatic Bottling Rinsing filling and capping machine monoblock type for 100 BPM our model RFC Water & Softdrinks

Automatic Filling Machine RFC For Water and Soft Drinking

Features

- Automatic Filling Machine
- Filling Machine Speed from 100 Bottle per minute
- Variable speed through frequency drive
- Easy installation, operating and servicing
- Full unit with stainless steel bottom MS only.

शुद्ध जल, रोग मुक्त जीवन

Capping Automatic elevator type Bottle Feeding blower conveyor All system and electrical Panel self designing machineries

Available in 60 BPM TO 200BPM

SODA WATER PLANT

A soda water plant refers to a facility that produces carbonated water, also known as soda water or sparkling water. These plants manufacture beverages by infusing water with carbon dioxide gas under pressure, sometimes with added flavors, minerals, or sweeteners. Here are the key details about soda water plants:

WATER TREATMENT UNIT

CARBONATION UNIT

MIXING TANK

FILLING AND PACKAGING SYSTEM

COOLING AND STORAGE

STEPS IN SODA WATER PRODUCTION

WATER PURIFICATION

CARBONATION

BLENDING (OPTIONAL)

FILLING

CAPPING AND LABELING

QUALITY CONTROL

PACKAGING AND DISTRIBUTION

HYGIENE PROTOCOLS

BUSINESS SCOPE

SODA WATER PLANTS

CATER TO:

- ✓ BEVERAGE INDUSTRY
- ✓ RESTAURANTS AND BARS
- ✓ HEALTHCARE

JUICE PLANT

Setting up a juice processing and filling machine plant involves several critical steps and decisions. Below are the details regarding the essential components, processes, and considerations:

PLANT LAYOUT AND DESIGN

MACHINERY AND EQUIPMENT

RAW MATERIALS

PROCESS FLOW

COST ESTIMATION

REGULATORY COMPLIANCE

BEER PROCCING & FILLING PLANT

BEER PROCCING & FILLING PLANT

Beer processing plants, also known as breweries, require specialized equipment for the various stages of beer production. Below are the main components of a beer processing plant, along with their functions:

MALT HANDLING EQUIPMENT

BREWHOUSE EQUIPMENT

FERMENTATION EQUIPMENT

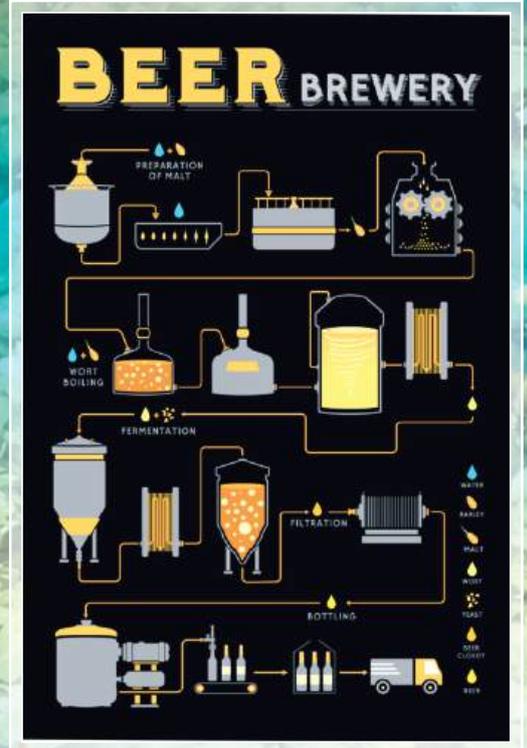

MATURATION AND STORAGE EQUIPMENT

FILTRATION EQUIPMENT

PACKAGING EQUIPMENT

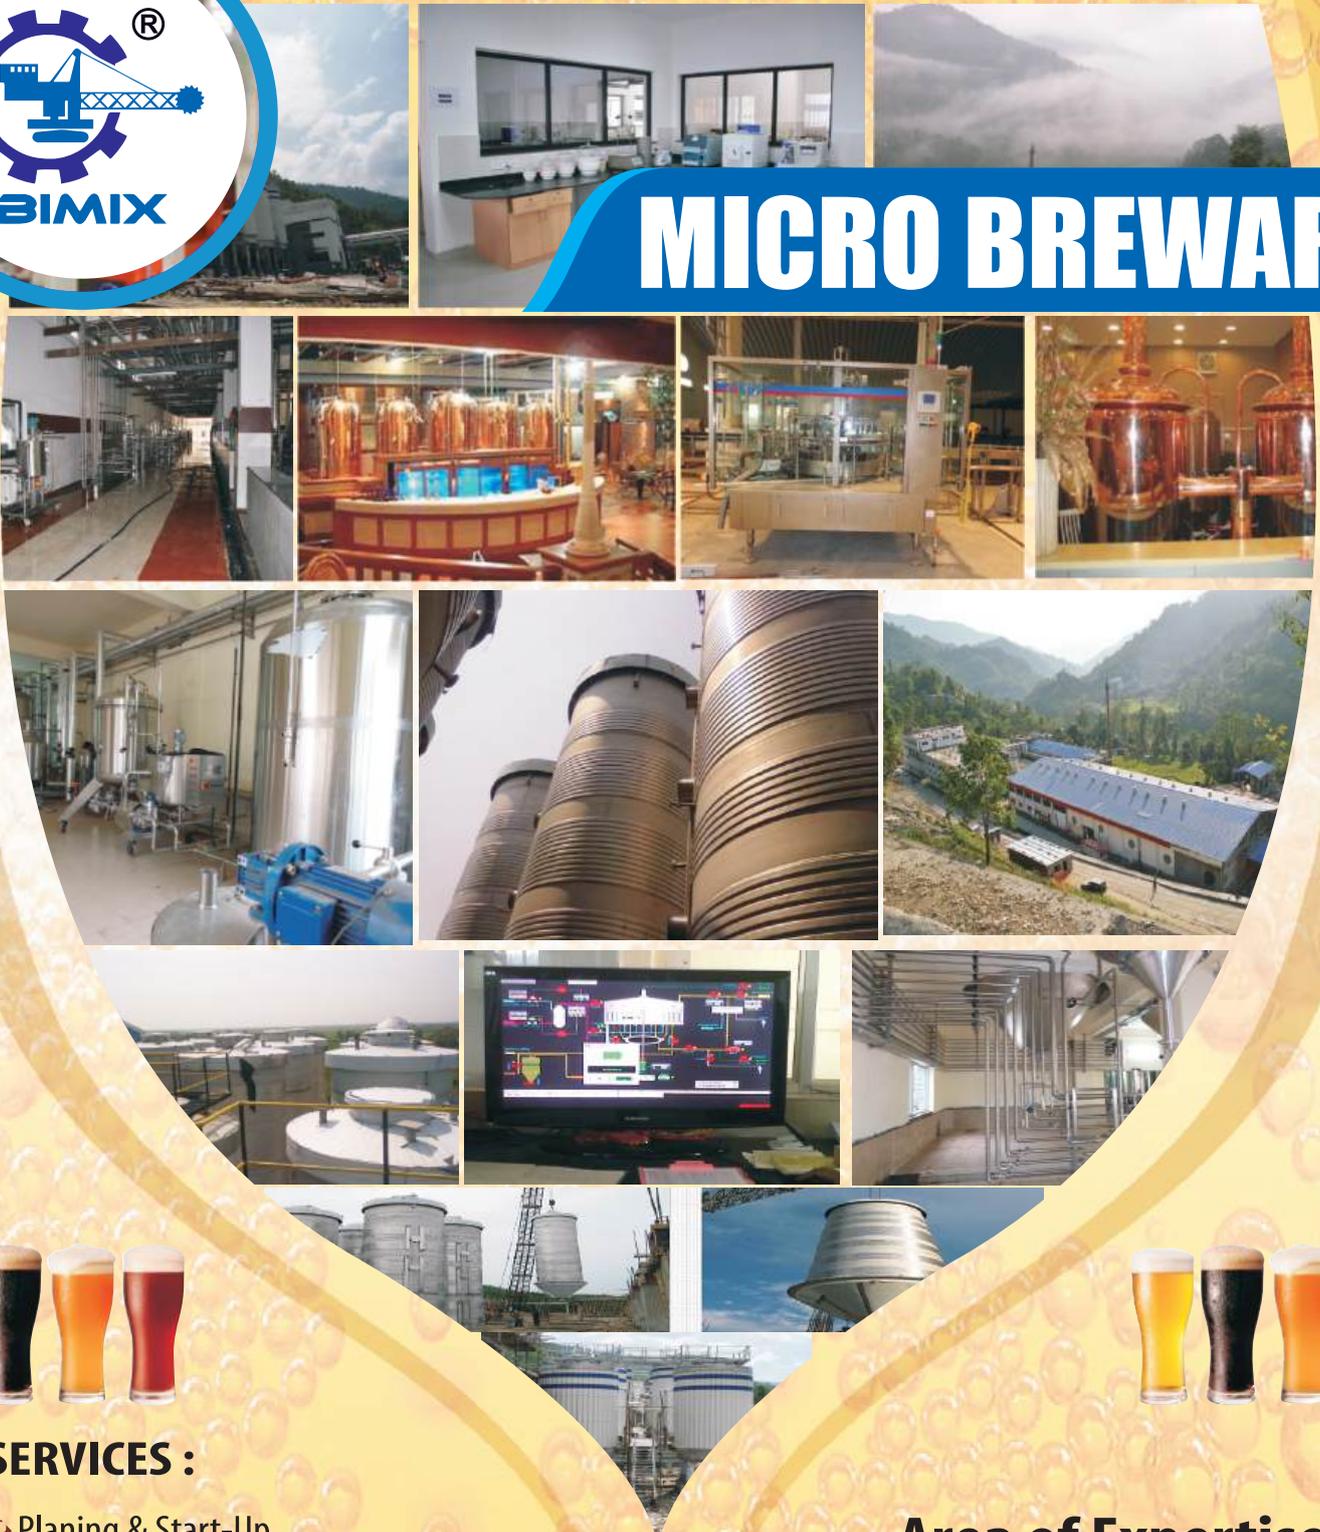

BEER PROCCING & FILLING PLANT

MICRO BREWERY

SERVICES :

- ✦ Planing & Start-Up
- ✦ Equipment Acquisition and Installation
- ✦ Plant Design
- ✦ Fermentation & QC/QA Issues
- ✦ Process Evaluation
- ✦ Staff Training
- ✦ Capacity Expansions
- ✦ After Commission Services
- ✦ Brewery Management Issues
- ✦ Annual Maintenance
- ✦ Capacity Enhancement
- ✦ Water Treatment
- ✦ Effluent Treatment

Area of Expertise :

- ✦ Brewing Technology
- ✦ Distillation Technology
- ✦ Dairy
- ✦ Green House
- ✦ Packaging Technology
- ✦ Ice Cream
- ✦ Structure Designing

PET BLOWING MACHINES

If you're looking for pet blowing equipment, it can refer to two main categories based on your context:

PET GROOMING EQUIPMENT

Pet Dryers/Blowers: These are used in pet grooming to dry fur after a bath or grooming session. Examples include

PET Blowing Machines (Plastic Bottles)

These machines are used in manufacturing to produce PET (Polyethylene Terephthalate) bottles. Types include

CAN FILLING MACHINES

BISCUIT

DRIED FRUIT

PEANUT

NUTS

OATS

MILK POWDER

COFFEE POWDER

Contact Bimix Machines Pvt. Ltd.

At **Bimix Machines**, we're dedicated to providing you with exceptional service and ensuring your experience with our products is nothing short of delightful.

Visit us online at www.bimixmachine.com to explore our range of products, learn more about our brand, and discover the essence of **Bimix Machines**
